Inground light

Description

Designing landscape and garden spaces is one of the most challenging phases of domestic and urban designing whether it was residential, governmental or public space. The luminaire Ambi is a great choice to light your outdoor lighting projects, as it combines the classic, yet contemporary, style with best lighting effect for the different architectural elements of your design: paths, stairs, greenery and lawn areas. This light will provide the desired atmosphere for the space and the application its meant to be used for, with round and square shapes, different wattage and easy to installation method, Ambi is simply an in-ground light that will provide you with the right light for your space.
